Federal Communications Commission
Washington, D.C. 20554

MAY 9 1997

The Honorable Lynn Woolsey
U. S. House of Representatives
1101 College Avenue, Suite 200
Santa Rosa, California 95404

Dear Congresswoman Woolsey:

Thank you for your letter on behalf of your constituent, Richard Keosian, regarding the Commission's policies with regard to licensing of 931 MHz paging systems. Mr. Keosian expresses concern that his paging applications have not been granted.

On February 20, 1997, the Commission released a Second Report and Order and Further Notice of Proposed Rule Making in WT Docket 96-18 and PP Docket 93-253, which adopted rules governing geographic area licensing for Private Carrier and Common Carrier paging licenses and established competitive bidding procedures for those systems. For your convenience and information, enclosed is a copy of the Press Release concerning the Second Report and Order and Further Notice of Proposed Rule Making, which includes a summary of the principal decisions made. Specifically, all mutually exclusive applications for non-nationwide Common Carrier Paging licenses and exclusive non-nationwide Private Carrier Paging channels will be subject to competitive bidding procedures. Additionally, all pending mutually exclusive applications filed with the Commission on or before February 20, 1997, will be dismissed.

Assigning frequencies by auction helps deter fraud and speculation and ensures that this valuable public resource is assigned rapidly and efficiently to the parties who value it the most, rather than given away to the first party who files its application with the Commission. The Commission has stated its belief in other contexts (such as Specialized Mobile Radio) that auctions will minimize administrative or judicial delays in licensing, particularly in comparison to other licensing methods such as comparative hearings, lotteries (which are specifically prohibited by the statute if the service is auctionable), or "first-come, first-served" procedures.

The Commission's newly adopted rules to auction paging frequencies is consistent with Section 309(j) of the Communications Act, which sets forth certain criteria for determining when auctions should be used to award spectrum licenses. Pursuant to these criteria, auctions are to be used to award mutually exclusive initial licenses or construction permits for services likely to involve the licensee receiving compensation from subscribers. The statute also requires that the Commission determine that auctioning the spectrum will further the public interest objectives of Section 309(j)(3) by promoting rapid development of service, fostering competition, recovering a portion of the value of the spectrum for the

public, and encouraging efficient spectrum use.

Moreover, the Commission has taken a number of steps to ensure that paging providers that are small businesses are not adversely affected by the transition to geographic area licensing and the use of competitive bidding procedures to award paging licenses. Additionally, the Part 90 shared paging channels will not be auctioned; instead they will be licensed on a site-by-site basis. We are establishing licensing areas of a size that will provide realistic bidding opportunities for small and medium-sized operators. We have also adopted special provisions in our competitive bidding rules for small businesses to facilitate their participation in the auction process, including bidding credits and installment payment provisions. In the Further Notice of Proposed Rule Making, we have proposed to allow paging licensees to partition their licensing areas in order to promote quicker build-out of small markets and rural areas.

Thank you for your inquiry.

Sincerely,

A handwritten signature in dark ink, appearing to read "David L. Furth", is written over the typed name.

Subject: Mr. Keosian claims he has not received the licenses he has applied for in the past. Please advise me on the status of his requests.

I am sending along the attached for your review and consideration.

A complete report, in duplicate and with return of the enclosures, will be appreciated. The response should be directed to the attention of Sandra Canchola-Pardo of my Sonoma County Office office located at 1101 College Ave., Ste. 200, Santa Rosa, CA 95404. If you need more information or if you have any questions, please contact Sandra at (707) 542-7182.

I would appreciate written final reply within two weeks. Thank you very much for your help.

Sincerely,

Lynn Woolsey
